**GARCES RESIDENTIAL CARE SERVICES GROUP HOME CONTRACT
COMPLIANCE MONITORING REVIEW**

In accordance with your Board's April 14, 2009 motion, we are informing your Board of the results of a Group Home compliance review.

Garces Residential Care Services Group Home has one site located in the 5th Supervisorial District. The Group Home provides services to Los Angeles County Department of Children and Family Services' (DCFS) foster youth. According to Garces Residential Care Services Group Home's program statement, its purpose is "to provide services to court dependent developmentally disabled children." Garces Residential Care Services Group Home is licensed to serve a capacity of six boys, ages seven through 18.

The Out-of-Home Care Management Division (OHCMD) conducted a review of Garces Residential Care Services Group Home in March 2011 at which time the agency had one six-bed site and six placed DCFS children. The placed children's overall average length of placement was 14 months, and the average age was 15. For the purpose of this review, four placed children were interviewed and their case files were reviewed. Three staff files were reviewed for compliance with Title 22 regulations and contract requirements.

Two children were on psychotropic medication. We reviewed their case files to assess timeliness of psychotropic medication authorizations.

SCOPE OF REVIEW

The purpose of this review was to assess Garces Residential Care Services Group Home's compliance with the contract and State regulations. The visit included a review of Garces Residential Care Services Group Home's program statement, administrative

internal policies and procedures, four children's case files, and a random sampling of personnel files. A visit was made to the site to assess the quality of care and supervision provided to the children, and we conducted interviews with children to assess the care and services they were receiving.

A copy of this report has been sent to the Auditor-Controller (A-C) and Community Care Licensing (CCL).

SUMMARY

At the time of the review Garces Residential Care Services Group Home was providing good quality care to DCFS placed children as outlined in its program statement. The children's case files and personnel files were well organized and professionally maintained. The site was clean and adequately landscaped. All four children interviewed said they felt safe at the Group Home. The agency had fully implemented the approved June 2010 CAP as observed in the March 2011 follow-up visit.

However, at the time of the review, the Group Home needed to develop comprehensive initial and updated Needs and Services Plans (NSP). In addition, the Group Home needed to appropriately document its monthly contact with the Children's Social Workers (CSW) and efforts to enroll the placed children in school within three days of placement.

Garces Residential Care Services Group Home was in substantial compliance with the contract program review and regulatory standards reviewed, scoring an overall 92% level of compliance. The March 2011 review of Garces Residential Care Group Home revealed the need for the Group Home to meet all the required elements in accordance with the NSP template, document monthly contact with the DCFS CSW on the NSP and explain why children were not enrolled in school within three days of placement on the NSP.

The Administrator and his staff were accessible, cooperative and willing to make the necessary corrections regarding the findings noted during the review.

NOTABLE FINDINGS

The following are the notable findings of our review:

- Of the four initial and 16 updated NSPs reviewed, none were comprehensive or met all the required elements in accordance with the NSP template. The Group Home agreed that all the required elements were not on the NSP template.
- In addition, the DCFS CSWs' Group Home contacts were not appropriately documented. The Group Home agreed that it had not documented monthly contacts with the DCFS CSWs on the NSPs.

- The Group Home did not document that some of the children were not enrolled in school within three days of placement. The Group Home agreed that it had not explained why some children were not enrolled in school within three days of placement on the NSP.

The detailed report of our findings is attached.

EXIT CONFERENCE

The following are highlights from the Exit Conference held April 1, 2011.

In attendance:

David Cuevas, Administrator, Julianna Bowers, Social Worker, Garces Residential Care Services Group Home; and Edward Preer, Monitor, DCFS OHCMD.

Highlights:

The Administrator was in agreement with the findings and recommendations presented by the Monitor. During the Exit Conference, he stated that Garces Residential Care Services Group Home planned to follow-up to ensure that the initial and updated NSPs were comprehensive, that DCFS CSWs' monthly contacts were appropriately documented and that children were enrolled in school within three days.

As agreed, Garces Residential Care Services Group Home provided a written Corrective Action Plan (CAP) addressing the recommendations noted in this compliance report. The CAP is attached.

We will conduct a follow-up to assess for full implementation of recommendations during our next monitoring review.

The following report is based on a "point in time" monitoring visit and is only intended to report on the findings noted during the March 2011 monitoring review.

CONTRACTUAL COMPLIANCE

Based on our review of four children's files, five staff files and/or documentation from the provider, Garces Residential Care Services Group Home was in full compliance with eight of 10 sections of our Contract Compliance review: Licensure/Contract Requirements, Facility and Environment; Health and Medical Needs; Psychotropic Medication; Personal Rights and Social/Emotional Well-being; Personal Needs/Survival and Economic Well-being; Discharged Children; and Personnel Records. The following report details the results of our review.

MAINTENANCE OF REQUIRED DOCUMENTATION AND SERVICE DELIVERY

Based on our review of four children's files and/or documentation from the provider, Garces Residential Care Services Group Home fully complied with 10 of 13 elements reviewed in the area of Maintenance of Required Documentation and Service Delivery.

The children were placed in accordance with the Group Home's population criteria, the Group Home obtained the DCFS CSW's authorization to implement the Needs and Services Plans (NSP), the children participated in the development of the NSPs and the NSPs were discussed with Group Home staff. In addition, the children were progressing toward meeting the NSP case goals, the treatment team developed timely initial and updated NSPs, the children received the required therapeutic services, recommended assessments/evaluations were implemented, and the agency assisted the children in maintaining important relationships.

The initial and updated NSPs were not comprehensive. Some of the initial and updated NSPs did not provide the children with realistic goals, a method to achieve the goals and a person responsible for the child achieving the goals. Some of the NSPs did not provide adequate documentation in the following sections: the child's visitation plan, child's telephone contacts, Life Skills, Education, Group Home's monthly contact with the CSW, and recommendations regarding the feasibility of the child returning home. In addition, the Group Home did not document some of the child's psychotropic medications and treatment services; explain why the children needed help with grooming or why the children were not enrolled in school within three days, and document the Group Home's contacts with DCFS Children's Social Workers.

Recommendations:

Garces Residential Care Services Group Home management shall ensure that:

1. The Group Home staff develops comprehensive initial and updated NSPs.
2. The DCFS CSW is contacted by the Group Home and that contacts are appropriately documented.

EDUCATION AND WORKFORCE READINESS

Based on our review of four children's files and/or documentation from the provider, Garces Residential Care Services Group Home fully complied with seven of eight elements reviewed in the area of Education and Workforce Readiness.

The children attend school as required, the agency met the children's educational goals, and the children's academic performance and/or attendance increased. Current IEP, report cards and progress reports were maintained. In addition, the Group Home provided opportunities and encouraged the children to participate in age appropriate Youth Development or equivalent and vocational training. However, some of the children were not enrolled in school within three days of placement. The Group Home reported that some schools refused to accept children without school records and some children's school enrollment was delayed in order to comply with special education needs.

Recommendation:

Garces Residential Care Services Group Home Management shall ensure that:

3. The children are enrolled in school within three days of placement.
